

SuperPrice Sprint Planning Notes

Team: Group-P02-07

Sprint: 2

Date: 17/09/2023

Attended:

Scrum Master: Abhijeet Kumar

Product Owner: Jason Pham

Development team: Vidyut Venkatesan (s3925040), Abhijeet Kumar (s3905291), Ibrahim Al-Ashhab (s3953973), Rashik Raj (s3931830), Udit Pradeep Malshe (s3933905)

1. Goal

The goal of sprint 2 is to finish developing all the features that weren't possible to do in sprint 1. At the end the final product will be completed.

2. Duration of the sprint

3 weeks

3. What is the team's vision for this sprint?

Creation of User Account and related tasks will be added to the backlog. Also offer/discount features and product subcategories their integration with frontend.

The product will be fully finished and functional by the end of the sprint. The website will allow a user to view different products from different stores and compare prices between them. The user can search for products and will also have the option to look at products with discounts to fit their needs. Users with an account can save and purchase these products via the website.

4. Estimation in story points

Creating user account functionality: 8 points

Offer API: 3 points

Subcategory integration: 4 points

Completion of All required features: 20 points
