Date: 20/08/2023

Attended:
Scrum Master: Abhijeet Kumar
Product Owner: Jason Pham
Development team: Vidyut Venkatesan (s3925040), Abhijeet Kumar (s3905291), Ibrahim Al-Ashhab (s3953973), Rashik Raj (s3931830), Udit Pradeep Malshe (s3933905)

1. Goal

Goal of this sprint is to get started on development of the site and get the basic features working on both the backend and frontend sides.

2. Duration of the sprint

3 weeks

3. What is the team's vision for this sprint?

Creation of all frontend pages from the wireframes will be added to the backlog. The creation of backend APIs to retrieve data from a database will also be done.

The product will allow users to view different products from the database and compare the prices of the products from different stores. The basic features like being able to search for a product and view its prices will be done.

4. Estimation in story points

Frontend basic pages: 6 points

Backend setup: 3 points

Backend API creations: 7 points

Frontend-backend integration: 5 points
